TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

OCT 18 1977

Date of filing in State Engineer's Office.....

Returned to applicant for correction.....

Corrected application filed.....

Map filed.....

OCT 18 1977

The applicant Sea and Ski Corp., a subsidiary of SmithKline Corp.

201 Edison Way - P.O. Box 2837, of Reno,  
Street and No. or P.O. Box No. City or Town

Nevada 89505, hereby make S application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) SmithKline Corp., located at 1500 Spring Garden Street, Philadelphia, Pa. 19101, was incorporated 4/23/65 in the State of Delaware.

1. The source of the proposed appropriation is underground  
Name of stream, lake or other source.

2. The amount of water applied for is 0.1 second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....acre-feet

3. The water to be used for manufacturing and domestic  
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 12. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: NE¼ SE¼ Section 17, T19N, R20E, M.D.B.&M., or at a point from which the West quarter corner of said Section 17 bears  
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,  
North 85°27'02" West, 4809.02 feet.  
it should be stated.

6. Place of use Portion of the SW¼ NW¼ Section 16, Portions of the SE¼ NE¼; NE¼ SE¼  
Describe by legal subdivision, if on unsurveyed land it should be so stated.  
Section 17, all in T 19 N, R 20 E, M.D.B.&M.

7. Use will begin about January 1 and end about December 31, of each year.  
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Water to be diverted by submersible pump from the well and transmitted via steel pipeline to point(s) of use.  
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$50,000.00
10. Estimated time required to construct works.....2 years
11. Estimated time required to complete the application to beneficial use.....5 years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Annual consumptive use will be 72 AF. Objective of well is to provide consistent supply of high quality water required in products manufacturing. Existing municipal supply is highly variable with respect to quality and often does not meet required quality controls. Principal use of water will be for manufacturing and cleanup operations. Approved equipment will be installed to prevent cross-mixing of well and municipal supplies.

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.1.....cubic feet per second, but not to exceed

72 acre-feet annually.

Actual construction work shall begin on or before.....January 14, 1979

Proof of commencement of work shall be filed before.....February 14, 1979

Work must be prosecuted with reasonable diligence and be completed on or before.....January 14, 1980

Proof of completion of work shall be filed before.....February 14, 1980

Application of water to beneficial use shall be made on or before.....January 14, 1981

Proof of the application of water to beneficial use shall be filed on or before.....February 14, 1981

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....JAN 12 1979

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No.....Issued.....A.D. 19.....78
